SAMBASIVARAO ALAPATI

has successfully completed the online, non-credit Specialization

ASP.NET for Experienced Developers

In this specialization, learners are taught to build robust, scalable, and secure applications using .NET technologies. They have learnt the fundamentals of C# language, how to develop web applications and APIs using ASP.Net Core, and how to deploy microservices using Docker containers and implement DevOps practices. They are well-equipped with the knowledge and skills needed to develop advanced applications in .NET Core.
